

GMS1050

FR Sock Stuffer

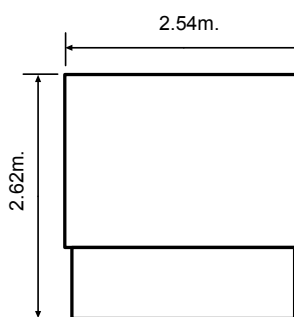

Sock stuffer from GALKIN is a labor-saving system that greatly improves the process of covering heavy foam bed units with FR socks. Pair this GMS1050 with a Galkin GBC 1500 sock sewer for a complete FR sock line.

SPECIFICATIONS	GMS1050
Voltage	220V
Current (amps)	20
Shipping dimensions	115" X 40" (292 X 101 cm)

Easily fit heavy foam mattress units into FR sock covers with this elegantly simple and effective machine. The motorized controls of the GMS1050 make this process fast and easy.

- Feed-assist gravity rollers help the foam core feed smoothly into the FR sock.
- Heavy-duty structural steel tube construction.
- Unit is set up at ergonomic work height.
- Simple forward/reverse foot pedal activation.
- Adjustable conveyor speed for foam core feed.
- Adjustable FR sock width and post height distance allow for variable FR sock sizes.

Global Systems Group® (GSG) is a collection of the world's leading mattress machinery companies. These GSG machinery companies represent leading-edge technology in computerized quilting machines and panel cutters, automated and conventional sewing machines, material handling solutions, and mattress-packaging equipment.
