

PBS-700

Blindstitch Pillowtop Machine

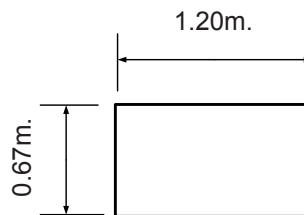

Blindstitch machine from Porter® International attaches gusset to the quilted panel of a pillowtop mattress. The blindstitch process hides the stitching for a cleanly tailored appearance.

SPECIFICATIONS	PBS-700
Stitch type	1 thread blindstitch
Max Speed-rpm	2300
Recommended speed-rpm	2100
Needle type	251
Needle size	5 1/2
Presser foot height	3/4" (19 mm)
Auxiliary feeding device	3 point puller device
Motor type	Servo needle positioner
Max. thickness capacity	3/8" - 6" (9.5 mm -152 mm)
Current (amps)	5
Air pressure (psi)	80
Air consumption (cfm)	2
Weight (gross)	390 lbs/ 177 kg
Shipping dimensions	59" X34" X 51" (150 X 86 X 130 cm)

The PBS-700 utilizes the unique Three-Point Puller System. This system keeps a wide range of quilted panel thicknesses flowing smoothly and powerfully through the blindstitch sewing mechanism.

- Puller mechanism has driven top and bottom rollers located to the left of the needle.
- Additional puller located directly behind the feed mechanism.
- Will attach the gusset to the top quilted panel of the mattress, eliminating the addition of another inner panel.
- Use this machine as part of a pillowtop work cell to include other GSG products such as binders and gusset makers.

Global Systems Group® (GSG) is a collection of the world's leading mattress machinery companies. These GSG machinery companies represent leading-edge technology in computerized quilting machines and panel cutters, automated and conventional sewing machines, material handling solutions, and mattress-packaging equipment.
