

POM-500

Overlock Sewer

Overlock sewer from Porter® International is the ideal overlock machine for finishing the edges of specialty tick covers.

SPECIFICATIONS	POM-500
Max sewing speed	3200 RPM
Recommended sewing speed	2800 RPM
Max panel thickness	1" (25.4 mm)
Min panel thickness	1/8" (3 mm)
SPI	4 to 5
Seam Width	5 mm overlock
Presser Foot Height	1/2" (12.7 mm)
Needle type	DCX27
Needle size	#14
Voltage	220 (alternative voltages available)
Current (amps)	3
Air pressure (psi)	80
Air consumption (cfm)	1
Weight (gross)	405lbs / 184 kg
Shipping dimensions	59 X 34 X 51" / 150 X 86 X 130 cm

Specialty ticking materials can be too stretchy and soft for standard overlock sewing machines. The POM-500 is a high-quality machine that finishes precut specialty ticking and zipper covers.

- Trims a clean edge.
- Overlocks and adds a safety stitch for a secure edge, readying it for downstream processes.
- Can be used to close the cover's corners.

Global Systems Group® (GSG) is a collection of the world's leading mattress machinery companies. These GSG machinery companies represent leading-edge technology in computerized quilting machines and panel cutters, automated and conventional sewing machines, material handling solutions, and mattress-packaging equipment.
