

Portable HMI Quilter Controls

Handheld Quilter Operations Tablet

Quilter operations tablet from Gribetz International makes quilting operations more productive by giving operators more freedom and flexible controls.

The Portable HMI handheld quilter operations tablet puts machine operations at your fingertips and can reduce downtime with powerful, mobile maintenance tools. It comes with a magnetic charging cradle that mounts to the quilter control cabinet for convenient wireless charging of the device.

- Can be preloaded with optional Preventative Maintenance software.
- Can connect with the Gribetz service department for real-time service assistance via video feed software.
- Quilter remote start/stop function.
- Speed-bar function.
- Icon display for why quilter stopped.
- I/O status screen.
- PDF of Operations and Parts manual.
- Loop Take Time feature.
- Floater bar state (up/down).
- Maintenance screen information (optional).
- Monitoring of material run-low sensors (optional).

Global Systems Group® (GSG) is a collection of the world's leading mattress machinery companies. These GSG machinery companies represent leading-edge technology in computerized quilting machines and panel cutters, automated and conventional sewing machines, material handling solutions, and mattress-packaging equipment.
