

## **GS-19**

### *Hot-Melt Glue Line*

Glue line series from Gateway® Systems provides an ergonomic solution to assembling mattress units.

Gateway Systems offers two standard versions of the GS-19, or a system can be built specifically engineered to the customer's requirements.

GS-19E foam-encapsulating system features:

- Two-meter infeed conveyor with silicon belt and under-table cleaning roller.
- Glue bridge with auto-height adjustment.
- Traversing perimeter glue gun with auto-edge sensing.
- One fixed gun and four manually adjustable guns for central gluing.
- Three-meter outfeed conveyor with silicon belt and under-table cleaning roller.
- Nordson hot-melt system.

GS-19L panel-laminating system features:

- Two-meter infeed conveyor with silicon belt and under-table cleaning roller.
- Glue bridge with auto-height adjustment.
- Six manually adjustable guns and auto-edge sensing.
- Three-meter outfeed conveyor with silicon belt and under-table cleaning roller.
- Nordson hot-melt system.

Global Systems Group® (GSG) is a collection of the world's leading mattress machinery companies. These GSG machinery companies represent leading-edge technology in computerized quilting machines and panel cutters, automated and conventional sewing machines, material handling solutions, and mattress-packaging equipment.
