

## ***Shuttle 1200 Series***

### *High-Speed, Multi-Needle Lockstitch Quilting Machines*

Quilting machines from Gribetz International automate your mattress panel production for improved efficiency and greater yield.

SPECIFICATIONS	SHUTTLE 1200
Carriage travel	12" (300 mm)
Number of needle bars	3
Needle bar spacing	3" between bars (76 mm)
Needle spacing	1" (25 mm)
Sewing speed	500/600 RPM
Power	As required

The Shuttle 1200 quilting machine is available in computer-driven (M) and cam-driven (CAM) models. The Shuttle M1200 comes fully integrated with a computerized control system and both models provide reliability in lockstitch quilting machines.

- Designed for all industries, especially where high-production quilting is required.
- Precision quilting machine capable of performing at the highest levels of efficiency.
- Suitable for quilting thick and heavy materials such as mattress panels, bedspreads, comforters, and sleeping bags.
- Handles thin material used in the home textile and apparel industries.
- Allows operator to make on-the-fly adjustments for pattern compensation in width, length, and stitch density.

Global Systems Group® (GSG) is a collection of the world's leading mattress machinery companies. These GSG machinery companies represent leading-edge technology in computerized quilting machines and panel cutters, automated and conventional sewing machines, material handling solutions, and mattress-packaging equipment.
